

Out & About with Lori Sunflower

How would you describe Crestone to an alien?

Curt Cotham

Crestone is one of the most unique places I've ever lived. It's the most challenging and the most rewarding place because it challenges you at every aspect that it can, and also rewards you in kind for being up to the challenge.

Rita Toniatti

It's a mystical place where we channel you guys! We want you to feel welcomed and loved! You guys are the best!

Nathan Good

Proceed with caution... beware of kiddie pools and cuddle puddles. Also watch out for those skittle snack bowls, some have more than plain nose candy. And be extra careful with door prizes at those after parties... too much adrenochrome and you just might not make it home!

Raven

I would describe it as the Land of Misfit Toys.

Claudia Crane

Crestone is fantastic! Beam me up and I will be your tour guide.

Valerie Herenchak

Crestone is the culture of the future.

Robin Blankenship

You wouldn't have to!
